EMPRESS, ALTA. THURSDAY, Dec. 22nd, 1932

Price: \$2.00 Per Year.

Christmas & New Year's Greetings: Coupled with Best Wishes for Your Health, Happiness and Prosperity

St. Mary the Virgin  
(Anglican Church)

CHRISTMAS DAY  
10:30 a.m., Carol Service.

NEW YEARS' DAY  
11 a.m., Holy Communion.  
Rev. J. P. Horne.

Clubbing Offer

We have arranged for a special clubbing offer of the Family Herald and Weekly Star, and the Empress Express, the two papers for one year at the low price of \$2.50.

Castlecoombe W.M.S.

The Christmas Baby Band meeting was held at the home of Mrs. Roy Rivers on Saturday, December 17.

Meeting opened by singing hymns, "Jesus wants me for a Sunbeam."

Lords Prayer in unison. Reading: Mrs. Roy Rivers. "A Little Life Bearer," Mrs. Sylvia Hern.

"Christian Motherhood," Mrs. Tommy Hern.

Hymn, "Away in a Manger," "Motherhood in Heathen Land," Mrs. Roy Rivers.

"Only a Baby Small," Mrs. Roy Rivers.

"Where did you come from, baby dear?" Mrs. Roy Rivers.

"Childhood in Heathen Land," Mrs. Alex Rowles.

"Telling the Children," Mrs. Wm. Rowles.

Hymn, "When Mother's of Salem."

Closing Prayer, Mrs. Wm. Rowles.

A delectable lunch was served by the hostess, after which the children drew gifts from the Snowball, which were contributed by various organizations.

The Merry Christmas ring And drive away our fear; As it arrives we brighten lives And fill them full of cheer.

EMPRESS DRUG CO., Ltd.

We are agents for leading medicines. Cut flowers ordered on shortest possible notice.

No Publication Next Week

There will be no issue of the paper during the Christmas and New Year's holidays. We ask for the indulgence of readers and advertisers alike for this omission. With Christmas Greetings and Sincere Good Wishes to all for the Coming Year.

United Church

Christmas Tree Concert

The United Church Christmas Tree and Concert was held in the Church on Monday evening, December 19. Considering the amount of sickness prevalent, and other difficulties that those responsible for getting up the program had to contend with, the entertainment was pleasing and enjoyable and afforded the children Christmas entertainment, and reflects credit for those responsible who, as fore-said, had to surmount many difficulties in its presentation. The program included:

Orchestra selection. Beginners class. Chorus.

"A Real Welcome," by Boys. Recitation, Wesley Lester. "Story of Christmas," by Girls.

"Christmas Shoppers," Boys. "Trouble in Santa Land," Boys' Play.

Orchestra selection. "Christmas Eve at the North Pole," Senior Girls.

"December Lesson," Mr. Shields' Group.

Arrival of Santa Claus and distribution of gifts.

Epithet

He never took care how he carried his gun.

He stumbled one day when commencing to run.

The gun it went off, and off, too, went his head.

Here lies a great hunter, quite needlessly dead.

Driving isn't so dangerous. The story usually ends: "The driver escaped without injury."

Christmas  
1932

New Year  
1933

CHRISTMAS BELLS

CHRISTMAS Day--and far and wide  
Winter rules the countryside;  
Merrily now the sleighbells go,  
Tinkling softly over the snow;  
While humble home and castle hall  
Give thanks to Him who gave us all,  
When softly through the midnight clear  
The bells of Christmastide they hear.

Still above us shines the star  
Wise men follow from afar;  
Heralding to the world of men  
That Christ is born in Bethlehem;  
A Saviour risen from the Earth  
Who in a manger low had birth;  
Whose message universal wide,  
The bells rang out at Christmastide.

Holiday Attraction

The picture show, next week, will be on Wednesday, a special holiday attraction is offered entitled, "Pasecheros," a musical comedy hit which you will want to see. This will be the last showing until further notice.

Here and There

Over 100,000 lbs. of eels are exported annually from Canada, principally to Germany and the United States. They are caught along the lower St. Lawrence River and off the Atlantic Coast.

A total of \$11,112 radio receiving licenses have been issued by the Canadian Government Radio Branch from April 1 to December 31, 1932, or approximately one to every eighth person of the population of the Dominion.

A movie theatre has been installed on R. M. S. Aarnan on its Australian run and managers had the first entertainment in that line on a recent voyage. This is the first ship to reach Vancouver carrying sound movie equipment.

China's first woman barkeeper, Mrs. Lo Soon Kim Lee, was among the passengers aboard the Empress of Russia, recently sailing from Vancouver. Mrs. Lo obtained her legal training in England and is attached to the Hong Kong bar.

The Canadian people seem to have developed a considerable taste for macaroni, vermicelli, spaghetti and the like Italian food preparations. Output of 11 Canadian factories in 1931 was 26,311,423 pounds as compared with 16,515,625 lbs. in 1929.

With Remembrance Day in our minds, it is timely to recall the brief episode of Canada's part in the war inscribed on a tablet in the House of Parliament at Ottawa: "Six hundred twenty-eight thousand, six hundred forty-two bore the badge of Canada in the Great War; sixty thousand and six hundred sixty-one met death and passed on."

Good hunting is reported from the Bates Camp, near Matamoras, Ontario, on the main line of the Canadian Pacific Railway, seventy miles east of Sudbury. Moose and deer are very numerous close to the camp and in one morning a couple of U. S. hunters secured a fine bull moose and a deer. They killed to the limit of their license within a few days.

A free scholarship to be held at L'Ecole Polytechnique of the University of Montreal, offered by the Canadian Pacific Railway to minor sons of employees of the railway, was awarded to J. P. Lacroix, 18-year-old son of E. H. Lacroix, chief clerk at the St. John's Station. The award entitles to five years study proceeding to the degree of Bachelor of Civil Engineering.

Canadian Pacific Railway low rate return bargain excursions, a highly popular feature of the railway's operation since February last, have been and will be well maintained up to the end of the year. Outstanding recently have been the trip to Chicago from Montreal and the shorter trips into and out of the northwestern provinces. The rate and a quarter fare for return trips during the Remembrance Day holidays was well patronized and the company is again to be offered for the Christmas and New Year holidays.

Catholic Church  
Christmas Program

EMPRESS--Mid-Night Mass at 12:00 sharp, followed by a sermon, "Fear not, for behold I bring you good tidings of great joy, that shall be to all the people, for this Day is born to you a Saviour, who is Christ the Lord in the City of David" (Luke, Chap. II).  
Cleveland--Christmas Day, a High Mass at 11:00 a.m.  
Father Sullivan.

United Church

Empress: Church School, 2:00 p.m. Public Worship, 7:30 p.m. You are invited to worship with us.

"Merry Christmas: It will be merry if our hearts are in harmony with that of our Master."  
Rev. Geo. A. Shields, Minister.

If you find it difficult to keep your New Year's resolutions, perhaps it would be a good idea to make a few bad ones this coming year, for a change. For instance, you might resolve to be cross to your wife (if you have one) every day during the year, and then give her gentle words and loving kisses instead. You can in this way be consistent with your past record and possibly be a better man when another year rolls around.

12,000 Men Recalled  
To Work in Auto Plants

Work on new model production by a number of Michigan automobile plants has resulted in the calling of 12,000 workers. Some of these have already begun work, while others will report in the next week.

The Cadillac Motor Car company announced the recalling of 3,500 of the Hudson Motor Car company will bring back 4,200; The Olds Motor Works and the Fisher Body company, 4,000; while smaller numbers have been notified to return by other plants.

The Hudson Motor Car company said its production schedule called for the expenditure of \$12,000,000 on materials and parts.

The Willys Overland Company of Toledo, Ohio, announced that it expected to have 4,800 men back at work at its plant by January 1. The company has started work on the production of its new car.

Numerous indeed are the hearts to which Christmas will bring a brief season of happiness. How conditions have changed when compared to old memories which will be revived and dormant sympathies will be awakened by this Christmas tide. Back go our memories to the joyous times of our childhood. Many of those that we knew have passed on, but we smile brightly when memory recalls to us the merry jest, the trivial happenings and jolly times of past Christmas seasons that we seem to live over again. While Christmas still belongs to the children it still belongs to the adults. "Merry Christmas" is passed along from one to another. Sorrow is placed on one side and a fount of goodwill is opened, and mankind is at its nearest approach to the Brotherhood of Man at this season of the year. "Merry Christmas" pass it along.

"The Unholy Garden"

Ronald Culman, the star of "Bent Gents" appears again in a story of the S. Hara. A tale of desert during in an Arabian setting. The Unholy Garden! one of the few places still remaining where fugitives from justice may still find refuge--safe from the police and extradition. Here from all over the world drifted adventurers who proved on their fellow men--and strange beautiful women who preyed on the adventurers.

Also 2-reel comedy and Fox News. At the theatre on Christmas Eve, Saturday, Dec. 23.

Manager: What do you do?  
Vandellville Actor: "I stage a 'trained fish' act."  
Manager: "What's the dog for?"  
Artist: He carries the under studies.

## Pains Around Her Heart

**Tired Out After Doing Housework**

Mrs. Henry Ranch, Mount Lake, Alta., writes:—"Last fall I had had pains around my heart, and each morning, after doing a little housework, I seemed to get dizzy and feel all tired out."

Now that Milburn's Heart and Nerve Pills were good for these troubles I sent for a box, and after taking the Pills for a few days, I felt a whole lot better. Since then I have had no return of the dizzy spells and pains around the heart."

For sale at all drug and general stores; put up only by The T. Milburn Co., Ltd.

## British-U. S. War Debts.

At the time this article is written, President Hoover and President-elect Roosevelt are in conference giving consideration to applications made by the British, French, and other Governments which are indebted to the United States for loans made by the latter during the war, for an extension of the one-year moratorium covering repayments granted last year, and generally for a revision of the terms of settlement of these debts.

Inasmuch as these enormous international war debts are admittedly one cause of the existing financial and economic depression affecting all nations, whether they are directly concerned as debtors or creditors or not, it is well that the general position in regard to these debts should be understood in its broad outlines.

The war debts of the nations of Europe to the United States total approximately \$2,145,589,000, of which amount Great Britain owes \$11,105,965,000, and has paid \$2,000,000,000. France owes \$6,847,074,000 and has paid \$486,079,891; Italy owes \$2,407,677,000 and has paid \$7,584,422, with the smaller nations owing varying amounts. Repayment of these huge amounts were to be made within a period of approximately 100 years.

On the other hand, Germany was obligated to the United States for the sum of \$26,377,000,000 during a like period of time. In other words, as Germany paid her debts to the Allies, they in turn could pay the United States. But Germany cannot pay; the whole world now recognizes that fact. So at the Lausanne Conference last June, Great Britain and the other nations agreed to let Germany off for \$714,000,000 instead of \$26,000,000,000, provided the United States would radically reduce or cancel the war debts due to that country. Some of them have been completely exhausted their credit to those three years and would have collapsed, the result of which might have been a German victory. Great Britain came to their rescue. But while Great Britain could have continued to finance all her own stupendous war expenditures, she could not do so and at the same time finance her allies. So Great Britain borrowed from the United States and, in turn, financed Germany. They cannot repay the U. S. debt, and, as the above figures indicate, has been doing so. As a result Great Britain was due off of gold; had to go off the gold standard; and now because of failure of Germany to pay her, or pay other European nations which are so heavily indebted to Great Britain, it is no longer possible for Britain to continue paying out to the United States when others are not, because they cannot pay her.

Furthermore, in the huge borrowings by Britain and other countries from the United States, the latter country did not actually lend them credit. What the United States Government did was to advance them credit, whereby to buy food supplies, munitions, raw materials and manufactures of all kinds in the United States. In other words, the money was practically all spent in the United States in enormously high war prices for farm products, in war-time wages to workers, in one-time profits to manufacturers and people generally. The people of the United States prospered while Europe was impoverished.

With the ending of the war, and the necessity of paying off these huge credits the United States Government demanded payment in gold. The United States, we repeat, did not lend gold but sold supplies of all kinds on credit; then they refused to take supplies back in repayment but demanded gold. In order to prevent repayment in supplies they raised their tax to prohibit heights and shut out foreign goods. In so doing they killed off the export trade of the debtor nations, thus making it still harder, in fact impossible, for them to pay.

Great Britain has never defaulted in payment of its obligations to any one at any time. Repudiation of obligations has never been contemplated by Great Britain, although it has been the victim of such practices by other nations, including several of the States of the United States. Britain has no desire to default now, and years ago after the war she owed to her if her own debts, created by borrowings to assist these other nations, were similarly written off. The world's financial and economic troubles today are not due to Great Britain and her advice and example being followed after 1918 there would be no trouble.

If the United States still remains adamant, if it refuses to cancel or very substantially reduce the amounts owing to that Government, and continue to insist on payment in gold, then, in our humble opinion, the stand to be taken by the British Government should be this: Payment in gold being impossible, and in view of the fact that the debt was created through the supply of goods produced or manufactured in the United States, thus requiring employment and wealth in the United States, Great Britain should now offer to repay the United States by exactly the same method—that is, by supplying the United States with goods produced or manufactured in Great Britain, or through services, such as shipping which Britain can supply, thus providing employment for Britain's unemployed, and producing wealth for Britain's over-taxed people and institutions.

Until the United States is prepared to accept such British credits in exchange for the credits extended to Britain, that is, to accept British goods and services in payment for the United States goods and services supplied, Great Britain, while not repudiating anything, would refrain from making any further payments in gold, and let the United States wait for any further settlement until that country is prepared to accept the same treatment from Britain, that, in the hour of the world's extremity, the United States extended to Britain. Could anything be fairer?

## The McIntosh Is Popular

Popularity of the "McIntosh Red" apples grown in Canada is evident from the fact that the whole of this year's crop grown in Western Canada has already been marketed. More than 350,000 boxes of these apples have been shipped to the domestic and export markets.—Department of Agriculture.

## Minister—I made seven persons happy today.

Housekeeper—Really, sir?  
"Yes, I married three couples."  
"That only makes six persons."  
"Do you think I did it for nothing?"

Riggs vary in weight from 18 to 32 ounces to the dozen.

7 Day Trial Treatment, \$1.00. 30 Day Full Treatment, \$3.50.

ACTON LABORATORIES (WESTERN)  
207-A Seventh Ave. East CALGARY

## Canada At Geneva Conference

Delegates Gave Full Support To Every Constructive Proposal

Canada gave whole-hearted support to any and every constructive proposal for the limitation and reduction of armaments which was laid before the Geneva disarmament conference, Sir George Perley, who headed the Canadian delegation, informed the House of Commons, Sir George Perley to the House a letter which he wrote to Prime Minister R. B. Bennett, summarizing briefly the proceedings before the Geneva conference on its opening in February until the adjournment of the first session in July.

"The work of the first session cannot be considered an unqualified success, and yet it is not fair to say that nothing was accomplished," Sir George informed the Prime Minister. The ordinary complexities of a disarmament conference, and the fact of his further by several special events which added to the difficulties of the disarmament conference, the situation in the Far East, and the "exigencies of politics in certain European countries" were among factors. "As a result not so much was accomplished as was hoped for," Sir George wrote.

Sir George was accompanied to the conference by Hon. Maurice Dupré, solicitor-general, and Miss Winifred Boyd, president of the National Council of Women. To both of his colleagues he paid tribute on the floor of the House. "There were only two ladies who were full delegates to the disarmament conference," he stated, "the Prime Minister, and we are proud of the fact that one of them was a Canadian."

British of great importance will be considered at the next session of the conference, Sir George informed the Prime Minister. "They cannot repay the U. S. debt, and, as the above figures indicate, has been doing so. As a result Great Britain was due off of gold; had to go off the gold standard; and now because of failure of Germany to pay her, or pay other European nations which are so heavily indebted to Great Britain, it is no longer possible for Britain to continue paying out to the United States when others are not, because they cannot pay her."

## A Great Natural Port

West Should Use Every Legitimate Means To Attract Commerce

The point of Churchill's speech today accurately publicly well distributed in Great Britain, New York and elsewhere, Canada, E. Cora Hind, commercial and agricultural editor of the Winnipeg Free Press, said in an address before the Winnipeg real estate board on the On-To-The-Bay Association.

"Churchill is a great natural port, work to induce western boats to trade to send a strong delegation to meet the first boats coming in next season and make a real occasion of it. She also urged preparation and distribution in Britain and eastern Canada of statements as to the advantages of the bay route, avoiding any exaggeration.

"Every effort should be made," she said, "to induce western merchants to order goods brought in by that route. All ships coming in next season should have some inward cargo."

"Churchill is a great natural port, work to induce western boats to trade to send a strong delegation to meet the first boats coming in next season and make a real occasion of it. She also urged preparation and distribution in Britain and eastern Canada of statements as to the advantages of the bay route, avoiding any exaggeration.

## Well Repaid For Kindness

King George and Queen Mary Enjoyed Meeting Helen Keller

Their kindly majesty of King and the Queen, never permitted to make a gracious act, when they received informally Helen Keller, the deaf and dumb, who has accepted the same treatment from Britain, that, in the hour of the world's extremity, the United States extended to Britain. Could anything be fairer?

## Big Angler, Small Fish

Mrs. Daisy, of Southampton, who weighs over 200 pounds, and was the heaviest competitor of the 823 taking part in the Southend fishing festival, had the smallest prize-winning catch which weighed 3 ounces.

The 500-year-old cist at Chalfont St. Giles, England, beneath which Milton sat frequently, was found recently.

Brazil is requiring all gold miners to sell their product to the government.

Automobiles produced in the world last year totalled 3,042,069.

A gun, if fired under water, will generally explode.

## HAPPY TO BE 136 Lbs

Lost 38 lbs.—More To Follow

Most women would be alarmed if their weight showed 136 lbs. But this one. You see she was 174 lbs. and she has found a way to take off that extra 38 lbs. over.

She writes:—"Six months ago, my weight was 174 lbs. I started to take Kruschen and have gradually gotten down to 136 lbs.—and am still losing weight. I have never felt my diet at all, and I only take a half-teaspoonful of food salts in a glass of hot water every morning. I also find Kruschen very good for biliousness, from which I used to suffer a great deal. But it has completely left me now—in fact, I feel a different person, and have only to thank those wonderful Kruschen salts."—(Mrs. M. K. R.)

Taken every morning, Kruschen effects a perfectly natural clearance of undigested food substances and all excessive watery waste matter. Unsettled bowels are regularly expelled. Nature will eventually sort it up out of the way in the form of ugly fat.

One bottle is enough to show you that Kruschen will make you feel that you are a man to be proud of. You'll enjoy life—every minute of it.

## Thinks Canada Fox Ranch Will Disappear

Fur Importers Predict Its Merging With General Farm

Complete disappearance of the fox ranch lands is a possibility, according to Leon Chapal, managing director of Les Magazines Generale de Marche Francaise, of Montreal. Mr. Chapal said that fur farming has become merged with general farming, as there is not sufficient market to make it worth while for a man to devote his time to it, while it fits in admirably with mixed farming.

Mr. Chapal was in Montreal en route to Prince Edward Island to make a survey of the fox ranching industry there. No competition exists between Russia and Canada in the fur trade, as the two countries are of different types. Canada deals in silver fox and other furs of that variety, while Russia produces white fox and astrakhan.

All Canadian furs, except the small quantity bought in the Dominion, are purchased by Parisian interests, Mr. Chapal said. Even Americans are buying Canadian furs in Paris because buying Canadian furs in Paris because his firm had sold more furs in August and September of this year than ever before in its 40 years of existence.

Useful In Camp—Explorers, surveyors, prospectors and hunters will find Dr. Hume's Vaseline very useful in camp. When the feet and hands are wet, the Vaseline will keep them freely with the Oil and the result will be the prevention of pains in the muscles, and the work must be continued, or sprain be sustained. The Vaseline could be better as a dressing or lotion.

## Whistling Pigeons

Birds Used By Ontario Provincial Fur Trade To Carry Messages

Travelers in the north woods of Ontario next summer will be astonished when they hear and see what they may take to be a new species of bird, and, indeed, it is a new species. It is the whistling pigeon, a bird of vision of whistling swans and wild pigeons, and hear the whistle, but the two are separate entities. Joined it is true but only for a space and then to carry out an idea.

Next spring, after a period of training, teams of homing pigeons will be transported to various fire patrol points where communication by wireless is too difficult or impossible. Reports of fire, forced landings and important messages may be relayed by the use of these birds to the base in the heart of the Provincial Air Force. The whistle! That is to scare away hawks and other predatory birds that might attack the homers, and be lashed to their legs along with identification tags.

Makes Breathing Easy. The contraction of the air passages and the struggle for breath too familiar evidence of asthmatic trouble cannot be denied. Dr. J. D. Kellogg's Asthma Remedy. This is the most famous remedy which is known far and wide for its complete effectiveness even under very severe conditions. It is no untried, experimental preparation, but with many years of pre-scientific service behind it. Buy it from your nearest dealer.

The Orient imported, in the first half of this year, 301 per cent more American wheat than the corresponding period of 1931.

Douglas' Egyptian Liniment relieves toothache and neuralgia. Invaluable in cases of cramp, sore throat and quinsy. Keep a bottle handy.

There are supposed to be 303 birds in the science of jiu-jitsu by which a man can be quickly thrown.

W. N. U. 170

## Boost Woolen Trade

Believes New Trade Agreement With Britain Will Be Beneficial

Both Canadian and British woolen manufacturers should enjoy greater business in the Canadian market in the long run, as a result of the changes in the textile tariffs affected by agreements at the Imperial Conference, declared H. Barrett, of Toronto, in his presidential address to the annual meeting of the Canadian Woolen and Knit Goods Manufacturers Association.

Addressing the members who had gathered from all parts of Canada, Mr. Barrett devoted the greater portion of his address to the Imperial Conference and its effects on the woolen industry.

"The improvement of Great Britain's position in the Canadian market," he said, "will be partly at the expense of employment in the Canadian mills and partly at the expense of mills in non-empire countries. But as the preferences on our primary products become effective the market in Canada for wool products should increase so that the total effect should be to increase business in Canada by both Canadian and British mills."

## Decide To Advertise

Brazil Taking Best Way To Solve Coffee Problem

Having failed to solve the coffee problem in Brazil by destroying beans and after trying out numerous schemes, the Coffee Council of Brazil has finally decided the best thing to do is to advertise the coffee and sell it.

One million dollars has been set aside for an intensive advertising campaign in North America. There is no better way to move goods than to advertise them. Successful business men discovered that long ago.

Persian Balm—Invaluable to the sufferer from rheumatism, neuralgia, and all sorts of aches and pains. It is a soothing, healing balm. And to the father, splendid hair restorative and cooling soothing lotion. Persian Balm rubs and refreshes the skin. Makes hands delightfully soft and white. Indispensable to dainty women. A little rubbing and it is absorbed by the tissues, making the skin truly rosy in texture.

## B.C. Salmon For East

Fifty-six thousand cans of British Columbia salmon arrived at Montreal for distribution through Ontario and Quebec. It represented the largest single shipment of the fish ever made by steamer from Vancouver to Montreal and came on the freighter "Canadian Wanderer."

As love thinks no evil, so envy thinks no good.

**Keep fit!**  
Headaches, nervous depression, irritability, keep them all away by keeping your system clean. Take Enos every morning.

**TAKE ENOS FRUIT SALT**

## The Newest Shooting Club

Buenos Aires Criminals Practice Shooting At Outdoor Policemen

A shooting club for criminals where they could practice firing at cardboard figures of policemen was discovered by authorities at Buenos Aires with the arrest of one of the band. A letter from the woman proprietor of the club, found in the captured man's possession, revealed the location of the range.

On raiding the house the police found a 90 ft. underground shooting range and three gunners assiduously practicing their marksmanship. The range was lined with soundproof boarding and fitted with the latest appliances. Blue cardboard figures of police men, wearing helmets and carrying rifles, were placed in the line of the shooter were kept in a card index.

## Odyssey Of Death

Clash With Australian Head-Hunting Tribes Has Given Rise

An Odyssey of death and danger was recited recently when Norman Cook, Los Angeles, returned from an expedition into the Australian desert to get motion pictures of head-hunting tribes.

Seventeen of his Japanese allies were killed by the savage aborigines, he declared. Thirteen captured part of his arms and destroyed them, he added.

"Those of us who were armed escaped," he said. "The head-hunters are deathly afraid of powder or bullets."

Along the River Thames the Royal Life Boat Society has 300 life-saving stations.

Building activity is growing in parts of France.

The rarest rock in diamonds is blue.

**PHILLIPS' MILK OF MAGNESIA**

Neutralize the effect of excess acid with 2 teaspoons Phillips' Milk of Magnesia at night.

Indulgence in rich foods, tobacco, or anything else that piles up acid in the system should be offset with a little Phillips' Milk of Magnesia. This neutralizes the acidity and you feel fine. Plenty of men know there is nothing like it for "morning after." Get the genuine; there's something about the Phillips formula, and the way Phillips' is made. Substitutes don't act the same.

ALSO IN TABLET FORM: Phillips' Milk of Magnesia Tablets are now on sale at drug stores everywhere. Each tiny tablet is the equivalent of a teaspoonful of genuine Phillips' Milk of Magnesia.

Made in Canada

## English Heirlooms

Royal Commission On Historical Monuments Busy Taking Inventory

If there are any who imagine that the auction rooms have made a clear-  
ance of the historic treasures of Eng-  
land they may reassure themselves.  
Prodigious as the sales have been in  
recent years, they have but "scratched  
the surface" of the United Kingdom's  
riches. Ample evidence of this is furnished  
in the inventory, so far as it has  
proceeded, of the royal commission  
on historical monuments. Appointed  
by King Edward 24 years ago the  
commission has to date made a sur-  
vey only of London and of five coun-  
ties. The war and the lean times fol-  
lowing are in part responsible for the  
seeming slowness of progress, but  
even more so has been the laborious  
care taken by the commission in  
every detail of its work.

Roman camps and earthworks,  
churches and castles, cottages and  
manor houses, monasteries and mar-  
ket halls—nothing was spared in the  
building or furnishings which was in  
existence before the year 1714 has  
engaged minute inspection. Charged  
to discover "those things which seem  
most worthy of preservation," the  
commissioners of Edward VII. and  
George V. in thoroughgoing survey  
put to the blush the commissioners of  
Henry VIII. who made a more sinis-  
ter valuation of England's abbeys and  
monasteries.

Fifteen substantial volumes in  
quarto record the results achieved so  
far. Even the smallest of the hun-  
dreds of photographs is a work of  
art. How stupendous was the amount  
of material which awaited examina-  
tion may be gathered from the fact  
that it was necessary to devote an  
entire volume to Westminster Abbey  
alone. Roman remains in London  
look another volume, and the same  
devoted to the city proper, a fourth  
and fifth to east and west London.  
Essex, Huntingdonshire, Hertford-  
shire and Herefordshire are con-  
sidered in other volumes. Some of these  
are already out of print.

There has just been published the  
report upon east Herefordshire. One  
of the most striking of the English  
shires, its relics of the past centuries  
now under notice range between the  
beacon camp on "Malvern's lonely  
height"—constructed when the Cruci-  
fian was an event of the far future  
—and the market house at Ross, one  
of the most interesting specimens of  
a public building of three centuries  
ago.

The churches of east Herefordshire,  
of course, have yielded an abun-  
dant material. Consider also their  
smaller possessions, and one is tempt-  
ed to speculate—admittedly an un-  
gracious speculation—upon the half  
which would "fetch" if they found their  
way to Christie's. Pious in their in-  
nate were being dignified discreetly  
and warily: "let us hope," when they  
were in sales in Canterbury Cathedral;  
commonplace cups and flagons in use  
when the 20 artists of the great  
pulpits followed by preachers who  
had talked with Archbishop Laud;  
bells which ring the alarm of the  
Spanish Armada; iron-bound doors  
traded by children of men who  
fought at Agincourt; oaken doors of  
manor houses which opened to gay  
cavaliers and to Cromwell's ironides.  
That England still holds for herself a  
vast treasure of the past is amply  
demonstrated when even this one vol-  
ume is opened.

The chairman of the royal commis-  
sion is the Earl of Crawford and Balcar-  
nath.

## Game Conservation

Alberta Fish and Game Association Asks For Grant

A \$5,000 grant to be used chiefly  
in conservation of wild life was  
sought from the Alberta Government  
by the Alberta Fish and Game Asso-  
ciation in annual convention at Leth-  
bridge. The association suggested the  
grant be made to the association from  
revenue derived through sale of hun-  
ter's and fishermen's licenses.

A resolution was adopted by the dele-  
gates asking the Alberta and Dominion  
governments through their parks de-  
partments to undertake destruction  
of coyotes, wolves and other animals  
which are killing deer in large num-  
bers within the park boundaries. Bird  
sanctuaries at Mary Island Lake,  
Chin Lake, Shabo Lake and Kirk-  
patrick Lake were proposed.

Only one suggestion was made in  
connection with hunting of game  
birds. This was a recommendation  
on open season of one week be pre-  
sented on ruffed grouse, north of the  
North Saskatchewan river, for a  
limit of five birds a day and 15 for  
the season.

Thomas Fraser, Edmonton, was  
elected president for the next two  
years and the next annual convention  
will be held in August, 1933, at Edmonton.

## Trade With China

Canadian Representatives Have Taken Up Duties In Orient

Special representatives of the De-  
partment of Trade and Commerce  
have taken up location in China.  
Frederic R. Bennett made this  
statement in the House of Commons.  
The Prime Minister had been asked  
if he would consider the advisability  
of appointing a special representative  
to China so as to facilitate trade re-  
lations.

Thomas Reid, Liberal member for  
St. John's, Westminister, put the question.  
He said that "in view of the fact  
that Chinese officials have refused to  
meet Hon. Herbert Marshall, Canadian  
Minister to Japan, the appointment of  
a representative was increasingly im-  
portant."

Mr. Bennett replied that provision  
had been made within the past 12  
months for special representatives of  
the Department of Trade and Com-  
merce to take up location in China.  
They had undertaken their duties  
there.

## Boosting World's Grain Show

Preparing For Biggest Grain Show In History Of The Continent

The buildings have been erected on  
the Regina Exhibition grounds, and  
preparations are now being made for  
the biggest grain show in the history  
of the continent. The whole world is  
interested and every grain country on  
the face of the globe will have exhib-  
its. The show will be held in the  
show could be chosen than the Queen  
City of the West, situated in Southern  
Saskatchewan in the centre of  
the great world grain belt. It is a  
wheat growing country in the world.  
It is also almost the geographical cen-  
tre of the Prairie Provinces, or, at  
least, the centre which is devoted to  
grain growing. Since the completion  
of the C.P.R. hotel and other hotel-  
ing, there is sufficient accommodation  
for the thousands who are expected  
to attend the show. Also, there is no  
more hospitable city in a country north  
of its hospitality than the Capital  
of Saskatchewan—London, Ont., Treas.  
Press.

## Government May Remove Some Dumping Duties

Certain Imports From Great Britain Are Under Consideration

The Canadian Government is giving  
serious consideration to removal of  
exchange dumping duties from cer-  
tain imports from Great Britain. This  
was announced in the House of Com-  
mons by Hon. H. H. Stevens, Minister  
of Trade and Commerce.

Canada promised "sympathetic con-  
sideration" under the Anglo-Canadian  
Treaty to removal of currency dump-  
ing duties from British imports.

## Even Before Adam

A modest Scotchman, in speaking  
of his family, said:

"The Douglas family is a vera,  
vera auld Scotch family. The line  
runs awa' back into antiquity. We do  
na ken how far back it runs, but it's  
a lang, lang way back, and the his-  
tory of the Douglas family is recorded  
in five volumes. In about the middle  
of the third volume, in a marginal  
note, we read, 'About this time the  
world was created.'"

Berlin has introduced travelling  
grocery stores which stop at specified  
places for housewives to make their  
purchases.

## BRITISH LAWN TENNIS TEAM LEAVES FOR AFRICA

Here are the members of the British Lawn Tennis team leaving London, England, for South Africa. They are left to right: Fred J. Perry, G. P. Hughes, Miss Betty Nutball, Mrs. Fearnley Whittingall (formerly Elsie Bennett), Miss Mary Healey and H. G. N. Lee.

## Clouds Are Depressing

Most People Feel Dependent When Sun Does Not Shine

Everyone had the blues this morn-  
ing. The sky caused it, for when we  
first awoke that ceiling was overcast  
with a dim greyish mist that filtered  
the sun's rays and made the morning  
dreary.

The newboy on the corner refused  
his customary greeting as I came  
through the gloom and flooded the  
streets below. And with its coming,  
our little world sprang into sudden ac-  
tivity. The figures in the street seem-  
ed to move more energetically; the  
bustle of city traffic began to make  
itself heard; and here and there I  
caught the sound of laughter. When  
I went to lunch the elevator boy  
grinned at me. The newboy on the  
corner called a delayed greeting as I  
passed. And the world came back to  
life again.

I thought later—how little it takes  
to sink us mortals into the depths of  
despondency. The sun refused to come  
out in the morning; a few mists close;  
a statistician frightens the brokers—  
and phuff! we are lost in despair.  
But, sooner or later, the sun is  
sure to break through the clouds of  
doubt and worry. And we are all  
going to wonder, then, how it was  
that we allowed ourselves to become  
so disconsolate and morbid.

Cheer up! In a very short while it  
will seem very funny that for a short  
time the sun forgot to smile.—Nelson  
Bond.

## Technical Agriculturists

Canadian Society To Meet In Regina In July

The directors of the Canadian So-  
ciety of Technical Agriculturists,  
meeting in Toronto, has accepted the  
invitation of the south Saskatchewan  
branch of their society to hold the an-  
nual convention at Regina during the  
first week of the World Grain Exhi-  
bition and Conference, July 24-31. An  
extensive programme of technical pa-  
pers on scientific subjects pertaining  
to production of grain of all kinds is  
being planned.

Hair will stretch one-fourth of its  
length and retract nearly to its origi-  
nal length.

## Second Hand Airplanes

Brisk Demand Reported In England For These Machines

Though it is certainly a sign that  
aviation is becoming part of the  
hurdum life of the country, flying  
enthusiasts may not be quite alert  
to know that second-hand airplanes  
are now for the first time coming on  
the market. The majority of these  
machines are light two-seater type  
and probably cost when new anything  
up to \$800 each. They are now offered  
second-hand, but apparently in  
perfectly good trim, for anything be-  
tween \$200 and \$400. Most of these  
machines are being put on the second-  
hand market by owners who have  
other found that the running and  
maintenance costs were greater than  
they anticipated, or whose first en-  
thusiasm for aviation as a private  
hobby has waned somewhat after a  
brief trial. A few cases there may be  
of course, where a bigger machine is  
desired. I hear there is a brisk de-  
mand for these second-hand machines.  
—London Cor. Ottawa Journal.

## Progress In Mixed Farming

Dairy Products and Cattle Help To Balance Budget

The great lesson of the crisis is the  
utter condemnation of one-crop culti-  
vation. If the objection is made that  
beasts, poultry and dairy products  
are not fetching a better price than  
wheat, they do at least contribute in  
great measure to balance the farm  
budget by reducing the expense ac-  
count. Our farming population must  
learn to be self-sufficient. The im-  
mense progress achieved in this di-  
rection will be very profitable and may  
avert other crises of the kind through  
which we are now passing.—La Lib-  
erte, Winnipeg.

## Quality Is Assured

One of the important safeguards of  
value for the farmer is the tag which  
appears on each bag of fertilizer sold  
in Canada showing the name and ad-  
dress of the manufacturer, the brand  
name, the registration number, and  
the guaranteed analysis. The admin-  
istration of the Fertilizer Act by the  
Dominion Seed Branch provides as-  
surance to the farmer that he is get-  
ting real value in fertilizer.

Alaska's great piedmont glacier,  
the Malaspina, consists of ice over a  
thousand feet thick.

India, isn't the only country with its  
unhatchables. Just try to borrow a  
five-spot from a friend these days.

## Hard Job For Judges

Testing Legality Of Will Made 100 Years Ago

Judges of the Ohio Supreme Court  
will determine the legality of the  
100-year-old will of Daniel Miles,  
whose eccentric life forms the strang-  
est chapter in the annals of the Cuya-  
hoga County probate court.

Should the terms of the will be  
upheld, ownership of one of Cleve-  
land's leading hotel sites and an in-  
dustrial estate there would be trans-  
ferred. Total value of the property  
involved amounts to several million  
dollars.

Simultaneously, the income from  
these valuable properties would be  
given to a church and to schools.

Miles, a member of a wealthy  
Cleveland pioneer family, died in 1827  
at the age of 36, a victim of "cough-  
ing sickness" for 100 years.

His will provided that the income  
from his 40 acres of land in Newburg  
township, now the present sites of  
the hotel and industrial estate, be  
given to three trustees and used in  
educating male members of the Miles  
family for 100 years.

At the end of 100 years, the will  
stipulated, the income from the estate  
was to be divided equally between  
Newburg township and a Christian  
church located in the district.

The instructions of the will were  
faithfully adhered to by the trustees  
for 11 years following the death of  
Miles. In 1833, two brothers of Miles  
died a suit to disclaim the trustees.

While complete court records are  
lacking, it has been established that  
Miles' brothers and sisters were given  
title to the estate in 1841.

Five years later, the courts divided  
the entire estate among the various  
heirs, who in turn took advantage  
of rising real estate boom and dis-  
posed of their property.

Nevertheless, the will of the pious  
Daniel Miles still remains on file, and  
the Supreme Court has been petition-  
ed to rule on the provision that 100  
years from his death the income from  
his estate be given to religion and  
education.

## Winter Pastimes

Idle Days Are Real Holidays In Canada

There is a delightful combination  
of atmospheric conditions and topo-  
graphical features in Canada which  
makes life in the open a pleasant ex-  
perience. Aside from the real enjoy-  
ment of participating in the different  
winter pastimes, the effect toward im-  
proving one's health is truly remark-  
able. The clear, crisp, dry air, and  
brilliant sunshine of a typical winter  
day acts as a tonic for tired brain  
and body, and it is at this particular  
season of the year that business men,  
both old and young, need most a pe-  
riod of relaxation to restore the energy  
expended since last summer's holiday,  
and to build up a reserve to carry on  
till next summer's vacation days ar-  
rive.

Discipline For Prisoners  
In dealing with prisoners several  
factors have to be borne in mind:  
Society at large has to be protected.  
The prisoner must be punished. And so  
far as is possible, an effort must be  
made at reformation. While discipline  
must be strict, the punishment should  
not be of such a nature that the pris-  
oner will be turned out a more hard-  
ened criminal than when he entered  
the penitentiary.

The Yangtze Kiang is the longest  
river on earth and 3,000,000 people  
live on it.

Experience may be defined as some-  
thing you get when you are looking  
for something else.—Ottawa Journal

## Mental Patients

Apparent Decrease Due To Greater Per Centage Of Discharges

Increase in patients in Canadian  
mental institutions during 1931 was  
less than the increase during the pre-  
vious year, according to figures issued  
by the Canadian national committee  
on mental hygiene. Total number of  
patients on the books of all Canadian  
institutions on December 31, 1931,  
was 32,000, of whom 20,097 were  
classified as insane and 5,960 as men-  
tally deficient. Total number of pa-  
tients on the books on January 1, 1931,  
was 30,445, of whom 21,948 were insane  
and 5,500 mentally deficient. The in-  
crease during the year was 1,611 which  
compares with an increase of 1,704 dur-  
ing 1930.

This apparent decrease in the  
number of victims of mental disor-  
ders, was not due, however, to fewer  
cases arriving at the hospitals, but  
rather to a greater percentage of dis-  
charges," the committee reports. "As  
a matter of fact, there were more  
admissions in 1931 than in 1930. There  
were 10,089 persons admitted to men-  
tal institutions in 1931, while in 1930  
there were only 9,869. Discharge  
numbers during 1931, as against 1930,  
were 10,089. For every 100 patients ad-  
mitted in 1931, 861 were discharged.  
In 1930, for every 100 patients ad-  
mitted, 855 were discharged as re-  
covered."

The chronic condition of over-  
crowding, which is a constant feature  
of mental institutions, is of course,  
aggravated more greatly by the fact  
1,611 additional persons have been  
forced into them. The total number  
of new beds provided is probably less  
than 200. Serious consequences  
thereof are being felt. The govern-  
ments take immediate steps to supply  
accommodation equal at least to the  
annual increase in institution popula-  
tion.

## Expedition To Jericho

Scientists To Explore Ruins Of Royal Palace

Professor John Garstang and Sir  
Charles Marston are to continue their  
excavations at Jericho in the winter  
to ascertain further facts about stories  
related in the Bible.

Professor Garstang will depart for  
Palestine in a month. Sir Charles may  
accompany him, or go later. They  
have four expeditions to Jericho in the  
last four years.

"The royal palace is the most im-  
portant building on the whole site,"  
says Sir Charles. This will be their  
first excavation.

"Its massive walls rise 60 feet  
above the surrounding ruins. We have  
already explored some of its store-  
rooms and have found bags of grain  
well preserved."

"It is significant that the whole  
palace was destroyed by fire when it  
was still occupation. The time was  
that of Joshua and our discover-  
ies agree with the Bible story. The  
royal palace is the most important  
work particularly in the hope of find-  
ing some cuneiform tablets which  
may be stored away in the cellars."

The ruins of Jericho were a winter  
excavations of Jericho have shown  
that when the city was captured and  
burned, it was not plundered. And  
this is exactly as described in the  
Book of Joshua.

Few people can realize the diffi-  
culty of the spade work at Jericho.  
The heat is terrific and reminds one  
of a mild Turkish bath.

Owing to the splendid road built  
by the armies in the World War,  
Jericho can now be reached by car  
in an hour from Jerusalem. The  
journey starts at 2,500 feet above sea  
level and finishes at 1,800 feet below  
sea level."

## The Kind She Knew

"The mistress was giving the new  
maid fresh from the country a list  
of household requirements."

"There you are, Alice," she said,  
and then suddenly remembered an  
item she had almost forgotten. "Oh  
—don't forget we shall want a  
new griller for the kitchen too."

Alice stared vaguely.

"Don't you know what a griller  
is?" asked the other, sharply.

"I should say I do," replied the  
maid significantly. "It's a big hairy  
monkey, the size of a man."

## Promote Scientific Union

"The movement for the promotion  
of scientific co-operation within the  
empire is substantial and far-reach-  
ing," declared Lord Beesborough,  
Governor-General of Canada, address-  
ing the Royal Canadian Institute at Tor-  
onto. Lord Beesborough's subject was  
"Scientific Union Within the Empire."

The city of Omak in Siberia, fol-  
lowing the example of Peter the  
Great, imposed a tax on beads in  
1929.

## WORLD HAPPENINGS BRIEFLY TOLD

Political considerations will be cast aside in the selection of men for the tariff board, Premier R. B. Bennett promised the House of Commons.

Friend of Louis Riel and the man who brought the rebel's body to Winnipeg for burial after his execution in Regina, in 1885, Arthur Sauve, is dead in his 73rd year.

A total of 187 Japanese and one Chinese were admitted to Canada from June, 1931, to November 1, 1932, according to a return tabled in the House of Commons.

Abbott Lawrence Lowell, 76, one of the world's noted educationalists and for the past 23 years president of Harvard University, has resigned. No reason was given.

Liquor revenue for British Columbia under the government liquor board for this year is 40 per cent, according to a preliminary report compiled by government auditors for the information of the legislature.

First shipment of its kind, some 12,000 tons of Russian fuel oil arrived at Montreal recently. Since September three shipments of crude oil from Soviet Russia reached the Montreal port.

A group of Harvard undergraduates have begun organization of a permanent "Harvard League of Nations," in which students from all countries represented in the university would have membership.

Nine sleek Alaskan sled dogs headed out of Copper Center, Alaska, on November 20, en route with their driver, Clyde Williams, veteran of 21 years of prospecting, trapping and mushing in the northland, on an overland trip to Chicago.

Canada gave whole-hearted support to any and every constructive proposal for the limitation and reduction of armaments which was laid before the Geneva disarmament conference. Sir George Perley, who headed the Canadian delegation, informed the House of Commons.

## Men in New Business

Content There Is Room For Them As Manicurists

Entering a field hitherto belonging exclusively to women, six Edmonton young men have finished training as manicurists. They're deadly serious about it.

The head of a prominent school of beauty culture in the east gave them their training. Economic conditions forced them into this experiment, but they don't intend to compete with women manicurists. There's room in the field for both, they say.

## Had No Representative

Women Cannot Be Blamed If Imperial Conference Made Mistakes

If the recent Imperial Economic Conference at Ottawa made mistakes the women of the empire cannot be blamed. So contends Canada's only woman senator, Hon. Carline Wilson. Addressing the annual banquet of the Ontario Liberal Association, Senator Wilson called attention to the fact that not one nation taking part in the conference had a woman representative or a woman adviser.

## Complete Moth Collector

Manitoba Men Proud Possessors Of Every Known Specimen

Manitoba has discovered herself the home of two of the greatest butterfly and moth collections in the world. They are owned by J. Hamblin, Winnipeg, and Jack May, of Riding National Park.

Comprising insects of varying size and design the two collections are representative of the entire world's entomological phenomena.

The "Silix" as it is called, is the Cattagranua from Columbia. South America, with two perfect numerals on its back, reading 88. Another has a death's head on its back, and still another a pair of owl's eyes. The specimens vary from the Great Hercules moth with a wing spread of eleven inches to others that are so tiny they can be hardly seen with the naked eye.

## Wheat For Subscribers

Yorkton Enterprise Books Circulation In Farming Districts

Eight carloads of wheat, more than 80,000 bushels, at a pegged price of 50 cents per bushel, were given in the "Yorkton Enterprise" during a novel circulation campaign. The wheat is represented by storage tickets on practically every elevator in the radius of fifty miles of Yorkton.

Farmer subscribers throughout the territory took advantage of the opportunity afforded of renewing their subscriptions with 50-cent wheat and close to two thousand new subscriptions were received.

## Winnipeg Newspaper Union

By Ruth Rogers

ORANGE CANDIED SWEET POTATOES (Serves 6)

1 cup orange juice.  
1/2 teaspoon grated orange rind.  
1 cup water.  
1/2 cup sugar.  
3 tablespoons light corn syrup.  
1/2 teaspoon salt.  
1/4 cup butter.  
6 to 8 sweet potatoes or yams.

Combine first 7 ingredients and pour over peeled uncooked sweet potatoes arranged in casserole or baking dish. Bake in a moderate oven (375 degrees to 400 degrees Fahrenheit) until tender, 30 to 40 minutes. Bake occasionally. Remove lid last 10 minutes to brown or put under broiler.

Variation: Just before removing from oven, add a layer of marshmallows and brown.

Russia estimates that its present population is 127,000,000.

England has twice as many women as men over 66 years old.

388

A DARLING NEW MODEL IDENTIFIED BY ITS RAGLAN SHOULDERS WITH PUFFED SLEEVES

The raglan shoulders in this charming daytime dress have much to do with creating sleeve interest. It is a gay red rough crepe silk. Contrast is provided by the black, rough crepe collar. Buttons give decorative touch. They are black and white crepe with the red crepe used for the rims.

It's as simple as eating apple pie to make it.

Style No. 938 is designed for sizes 14, 16, 18, 20 years, 36 and 38 inches bust.

Size 16 requires 3 1/2 yards 39-inch with 1 1/2 yard 39-inch contrasting. Crinkly crepe satin, wool crepe, velvet and wool and crepe silk novelties are also appropriate.

Price of pattern 30 cents in stamps or coin (coin is preferred). Wrap coin carefully.

### REBEL LEADER

Chas. Sauve Brings To Light Some Interesting Facts Concerning Rebel Leader

Louis Riel's grandfather's name was Rielson and Riel himself came from Limerick, instead of Quebec, is stated among the interesting records in a biography of "Riel, the Martyr," written by Charles Sauve, who died in Winnipeg recently.

Mr. Sauve was forty years in finishing the book, completing it a few days before his death.

He began to make notes at the time of Riel's death. Sauve was one of those chosen to go west to Regina when Riel was executed, and guard the box-car that brought the casket to Winnipeg during the black days of November, 1885.

Mrs. S. Smith, daughter of Sauve, in telling of the manuscript, said it disclosed Riel's body was not in the coffin buried in St. Boniface, but was buried secretly elsewhere.

In the book other famous characters of the west of those days are described, including Jean Baptiste Lagimodiere, who went on snow-shoes from Red River to Montreal.

One of Mr. Sauve's exploits as a young man was to duplicate this feat of his ancestor, walking to Montreal and back, carrying nothing but his gun. He was gone a year.

After fourteen years of flying, Douglas H. Davis, air mail pilot, of an Isleworth, England, second-hand store recently.

"False alarms are the curse of the fireman's life," says a retired captain. Nobody likes to be told to go to blazes for nothing.

Christmas Seal Campaign

Ninette Sanatorium in Manitoba Doing Splendid Work

The Christmas seals — what have they to say for themselves? What do they do to help in these bad days? They pay for the field work of the Travelling Tuberculosis Clinics. These clinics scout through Manitoba for hidden tuberculosis and help to take care of it. Already in 1932, 45 clinics have been held—more than twice as many last year, 16 places visited for the first time, and 4,440 examined, fifty per cent. increase over 1931.

These travelling clinics go into all parts of the province, into good communities, and poor, and everywhere. They follow clues of disease, examine those who have been in contact with open tuberculosis, or are suspected, and keep examining.

No charge is made for any such examination. There is now a van to carry all equipment and staff, and a portable generator, so that a current for X-ray films can be provided anywhere.

More than fifteen thousand examinations have been made by these Manitoba Travelling Clinics since they began, supported by seal sales. Besides known tuberculosis people who have been seen, the new discoveries of tuberculosis totalled more than one thousand.

When you bought seals last year this was the big work you helped with. When you buy NOW you help to do even more in 1933.

Should you buy seals? This year many should not or cannot. Do not be pressed to buy unless you know. We would like to think that none has bought who should not. It is quite easy to return the seals to the sanatorium at Ninette, Manitoba. If you have bought in other years and cannot this year please take a few seals without cost before returning.

But do your bit by buying if you can and what you can. The worse the year the more the need.

## Different Dog Taxes

In England they pay 7s. 6d. for a license for any sort of dog, but in Germany dogs are taxed according to their weight. A dachshund costs £2 a year. In France dogs are taxed according to their value. You can keep a mongrel for as little as a shilling, but a thoroughbred may cost thirty shillings.

## Biography Of Louis Riel

Chas. Sauve Brings To Light Some Interesting Facts Concerning Rebel Leader

Louis Riel's grandfather's name was Rielson and Riel himself came from Limerick, instead of Quebec, is stated among the interesting records in a biography of "Riel, the Martyr," written by Charles Sauve, who died in Winnipeg recently.

Mr. Sauve was forty years in finishing the book, completing it a few days before his death.

He began to make notes at the time of Riel's death. Sauve was one of those chosen to go west to Regina when Riel was executed, and guard the box-car that brought the casket to Winnipeg during the black days of November, 1885.

"False alarms are the curse of the fireman's life," says a retired captain. Nobody likes to be told to go to blazes for nothing.

## Manitoba Honey

Almost Entire 1932 Crop Of Honey Has Been Sold

Practically the entire 1932 honey crop of Manitoba has now been sold, and information is being compiled as to the amount disposed of, according to L. T. Floyd, provincial apiculturist.

History in the rapid development of bee-keeping in this province was made by the shipment of the first carload of honey to Montreal. This was done by the honey-growers around Ottumwa, who have been particularly active under the leadership of Brother Piuslet, of Malen St. Joseph. They also have filed a carload order for British Columbia.

Brother Piuslet teaches bee-keeping at his institution, and his students have become bee-keepers in all parts of the province. Mr. Floyd commended him for the big strides made in that part of the province. The most modern equipment for bee-keeping and extracting honey has been installed at Malen St. Joseph.

Good reports as to the honey crop have been received from the Hutterite colonies, where large acreage owned by the Hutterites has been the prolific source of this sort of honey that is giving Manitoba a Dominion-wide reputation. The James Valley colony at Starbuck, for example, produced 90,000 pounds of honey.

Exports of unusually good crops also have been received from the Gladstone and Pimnas districts from Gilbert Plains and Dauphin in the north and in the Carman area. In south-western Manitoba the honey crop failed on account of drought and grasshopper damage. In the Red River Valley area eastward from the Manitoba border from Winnipeg to the largest honey producing area in the province, while the crop was not so good in quality or yield by hives as it was a year ago, there was increased production because of enlarged apiaries.

Beekeepers around Oakbank, Dauphin, Cloverton, Anola and Hazelrigg, who have formed the Springfield Association, purchased around 1,000 packages of bees in the spring, and a carload of time to take care of the crop, according to Mr. Floyd. Three manufacturers sold 22 carloads of time to the apiaries of the province to take care of the 1932 crop, and there is a rumor that next year's supply of time will be made in Winnipeg. —Free Press.

## Steamers Missed Rock Through Good Luck

Found Near Surface in Channel Off Vancouver Coast

Lady Luck has been standing on the bridge of every steamer that has navigated Reilly's Cove, Claycoquet Sound, West Coast of Vancouver Island, because in the dead centre of the channel there is a pinnacle of rock that had less than fifteen feet of water over it at low water.

This pinnacle was located by the Dominion hydrographic steamer "Lal-loet" in the course of her charting work and a lot of mariners are shaking hands with themselves at getting over that dangerous spot without trouble.

How ships missed piling up on this rock is explained by the hydrographers that none happened to be in the neighborhood at low water. "Just a matter of luck," said one of the hydrographers.

## A Pocket Sheep-Shearer

Small Machine Can Run On Light-Battery Out Of Car

A small machine for shearing sheep weighs only a few pounds and is an invention for use with the lightning battery of a motor car.

Many modern shepherds in Britain go to and fro by car, and with such a shearer—attached by a flexible wire to the dashboard—they can remove 12 pounds of fleece in five minutes.

## Plenty In A Name

What's in a name?

"Plenty," says Detective Thomas Hemmigan and a New York Central railroad engineer, who was forced to stop his train, climb from the cab and shove an automobile from the railroad tracks where it apparently was abandoned. The automobile was parked on the tracks by a man named Leatt.

A forestry course for army recruits has been instituted in Norway.

## I haven't been so happy for years.

"I've just thrown out all my dust cloths

—because I've found how to do the work better, easier and quicker.

Now I have the Wonder Paper. You buy it in a neat package that tucks away handily in a table drawer. Twenty-five large sheets for a quarter. When you use it, you simply crumple it into a soft ball and go over whatever needs attention.

"I've never seen anything like Wonder Paper. It really dirts, cleans and polishes at the same time. It takes up dirt like magic, and so easily. And you can use both sides.

"What I used to loathe about dusting was the bother of keeping the dusts clean. I always used odds and ends of old shirts and the like—and it seemed to me I was eternally washing them. It worried me just to throw them into a bag or cupboard. They seemed so unsanitary.

The beauty of Wonder Paper is that you throw it away as you use it, and with it.

Can I promise that you'll like Wonder Paper? It gives you time for things much more attractive than dusting."

## Special Offer

WONDER PAPER is made by the makers of the famous FAYAT-SANI Heavy Wax Paper in the Green Box.

Most grocery, hardware and department stores have *Applied Wonder Paper* in stock. If yours hasn't, send the coupon below and we'll give you a booklet entitled "Leftovers", containing one hundred recipes, as a bonus for your trouble.

Applied Paper Products, Ltd., Hamilton, Ontario.

Enclosed find for which please send me one package of "Leftovers" and one 100 recipes for "Leftovers."

## Trelle Makes Almost Clean Sweep in Wheat At Big Chicago Show

Chicago, Ill.—Led by Herman Trelle, Canada made a clean sweep of all but five places in the hard red spring wheat awards in the International Hay and Grain show here, capturing 80 of the 85 awards and taking the first 65 places before a state exhibit record.

Seven Alberta exhibitors were in the first 10, of which Trelle, whose home is at Wembley, Alberta, was first, and Frelan Wilford, of Staveland, Alberta, second.

Joseph H. B. Smith, of Wolf Creek, Alberta, was forced to take fifth place in the two-rowed barley classes, bowing to two exhibitors from Victoria, Montana, Peter Erickson, who took first, and Gustave Lundbeck, second.

Trelle's exhibits in the six-rowed Trelle type barley that were up within the first four in last year's show were easily made, the state agriculturists sweeping all but three of the 15 awards, the first Dominion man to score being E. W. Peters, of Wynand, Alberta, with a ribbon valued place. Thirteenth was Samuel Larocelle, Birtle, Manitoba, and E. Green, Laura, Saskatchewan, 15th.

In barley, any other varieties, P. Trowell, Saltcoats, Saskatchewan, who has taken two other awards in two divisions, took this. A. H. McLeod and Gustave Lundbeck, both of Victoria, Montana, took first and second.

Canadian entrants in the show began their customary blue ribbon accumulation as the show opened Saturday. In the agricultural division, the first grand championship awarded went to R. S. Lee, of Chatsworth, Ont., for the best field pea, small yellow variety.

The second championship awarded was taken by Mrs. Mary E. Maycock, of Milford, Ont., with an exhibit of navy field beans. J. H. Lampman, of Ridgeway, Ont., took the reserve championship with a sample in the field beans of any other variety.

Herman Trelle, of Wembley, Alberta, world's wheat king, placed second with his samples in the field peas exhibit, while his fellowvictor, J. H. Anderson, was named reserve grand champion.

In the grain exhibits Alberta claims 23 samples, of which all but three weighed over 60 pounds per bushel.

Trelle, who last year captured the Armour wheat championship trophy, entered five exhibits in the line allowed under the rules of the hay and grain show. They are in the hays, field peas, hard red spring wheat and medium and early barley divisions.

In the oats exhibit, out of 19 samples in the medium division, one sample weighed 51.6 pounds to the bushel, a record which has to date never been equaled at the show. It is exhibited by H. Hamm, who lives north of Grande Prairie, Alberta.

Only one sample of hard red winter wheat has been entered from Alberta, though Trelle has taken awards in past years on samples in this class. It was raised by S. B. Allop, of Wembley, 760 miles north of the Canadian line, and weighs 65.9 pounds to the bushel.

In the field peas and other samples, Canada enjoyed a clean sweep.

## Chinese Peasants Reported Massacred By Japanese Troops

Shanghai, China.—A Chinese foreign office communication published here charged that 2,700 Chinese peasants were massacred recently in northern Manchuria by Japanese troops.

The mass killing was done by machine guns, the communique said.

Inhabitants of the villages of Ping-Ting-San, Chien-Chin-pai and Liao-kou, 10 to 16 miles northeast of Ping-Ting-San while Japanese soldiers searched the villages for Chinese volunteers, the announcement said. It was explained that the villages were suspected of co-operating with and harboring the volunteers.

According to the Chinese foreign office, the Japanese promised a reward if the villagers were found to be innocent, and then placed more

### Redistribution Bill

Parliamentary Committee Of 20 Members To Have Charge Of Work

Ottawa, Ont.—A parliamentary committee of 20 members will draft the redistribution bill, Premier R. B. Bennett announced in the House of Commons. There will be 11 Conservatives, seven Liberals and two Progressives. The redistribution bill will set representation in the House for the next 10 years and define constituency boundaries.

The Prime Minister explained the method of computing the representation for each province as provided in the B.N.A. Act. The province of Quebec, he said, was given a fixed membership of 65, and representation in the other provinces was based on the relation which that number bore to the population of Quebec. There were certain exceptions to this rule, which were set forth in the act.

### For Better Understanding

Makes Plea For Closer Union Between Britain and U.S.

London, Eng.—Speaking at a Pilgrimage Society luncheon, the honor of Robert Fraser, the new United States consul-general, Lord Hallahan, Secretary for War, made a plea for close union between Great Britain and the United States for the economic salvation of the world.

"Never has there been a time when it was more important that our two peoples should understand one another," he said. "We stood together in arms to protect civilization from violent destruction. I believe that today we, the two great creditor nations of the world, must stand together to protect the world from economic disaster. I believe that the hope of civilization lies in fuller understanding between Great Britain and the United States."

### Church Union

Australian Making Study Of Church Union System In Canada

Ottawa, Ont.—I don't think there is any chance of stopping the, declared Lieut.-Col. the Rev. A. T. Holden, D.D., president-general of the General Conference of the Australian Methodist Church, and chaplain-general of the Australian military forces, who was a visitor in Ottawa. Col. Holden is making a trip across Canada for the sole purpose of studying church union as it exists in this country, so that he can put forth proposals in his own country for the union of churches.

### Rumor Is Denied

British Promote's Health Excellent States His Physician

London, Eng.—Reassuring statement by Prime Minister Ramsay MacDonald's physician was before the nation following publication of a rumor that his health had taken a bad turn.

"I am glad to be able to tell you the prime minister's health is excellent," his physician, Sir Thomas Horder declared at a public meeting in London.

### Thanks East For Help

Hon. W. C. Buckle Votes Appreciation For Western People Toronto, Ont.—Western Canada was colorfully represented at the Royal Winter Fair when one of the greatest parades of livestock seen at this year's Royal Winter Fair, gave more than 11,000 spectators a vivid idea of what the western provinces can produce in the way of cattle and horses.

Hon. W. C. Buckle, minister of agriculture for Saskatchewan, spoke on behalf of Western Canada.

With great emotion the westerner expressed the thanks of Saskatchewan peoples for the manner in which Eastern Canada citizens had come to the rescue during the trying times in his province, due to drought of the last three years when many farmers were forced to abandon their farms and seek new fields.

"May I be permitted on behalf of my own people in these provinces who had occasion last winter to be the recipients of the generosity and kindness of people of Eastern Canada for carload after carload of goods sent from the East, to assure you that was sincerely appreciated and will not lightly be forgotten," Mr. Buckle added.

### New Bacon Policy Will Benefit Canada

British Markets More Open Than Ever For Product

Toronto, Ont.—"Canada will benefit automatically in the new policy by reason of the 280,000,000 pounds of bacon per year," declared J. S. McLean, of Canada Packers, Limited, in commenting on Great Britain's policy with regard to bacon restrictions which are now in effect.

"Her market will now be more open than ever to receive this Canadian bacon, which will take care of about 50,000 hogs a week," he said. Great Britain has started cutting down on her imports of bacon from foreign countries. She is doing this essentially as a preliminary to building up her production."

### New Stamp Issue

Bears Profile Of King Engraved In Medallion Style

Ottawa, Ont.—A new stamp issue, in denominations of one, two, three, four and eight cents was placed on sale by the post office department on December 1.

The new issue bears the profile of the King, engraved in medallion style, and is similar in design to the 3-cent stamp issued to commemorate the Imperial Economic Conference.

At the same time a new 13-cent stamp will be issued replacing the current 12-cent stamp that bears the view of the Quebec capital. The design of the new stamp will be the same as that of the 12-cent issue, but its colour will be violet.

### ITALY PASSES TENTH MILESTONE UNDER FASCISM

Since that October day, ten years ago, when the black-shirted legion, led by an almost unknown agitator, Benito Mussolini, marched into the Eternal City and started Italy on its comeback to greatness, many changes have taken place in the land of the Caesars and Popes. The most remarkable of these changes, to the looker-on, has been the climb to power of Mussolini, this world is less in every corner of the earth. It is today a world ruled by many, obeyed by all. Fascists claim that Il Duce has built up the economic structure of Italy to a position it has not enjoyed for decades.

### NEW AMBASSADOR

Herr Von Hoesen, new German ambassador to Great Britain, is shown above as he arrived in the British Capital.

### Talked Over Light Beam

Scientists Make Longest Narrow-Cut Experiment On Record

Schenectady, N.Y.—A group of scientists at Schenectady talked with another group at Lake Desolation, 21 miles away, over a light beam projected across the lower Adirondack mountains.

It was the longest narrow-cutting experiment on record. During a part of the experiment John Bellamy Taylor, who developed the method of transmitting sound over light waves, was interviewed by Heywood Brown, newspaper columnist, who was at Schenectady, while Taylor was at Lake Desolation.

A searchlight mounted on a building at the General Electric Company plant projected its beam upon a 30-inch mirror which was part of the receiving apparatus at Lake Desolation.

### For National Defence

Conference Of Defence Association Has Been Established

Ottawa, Ont.—Organized for the purpose of considering problems of national defence, co-ordinating the activities of the present service associations in matters of common interest, and generally promoting the welfare of the defence forces of Canada, the conference of defence associations has just been established. The conference will meet annually in Ottawa.

The chairman is Col. J. A. G. D.S.O., M.C., of Lethbridge, with Lieut. Col. A. W. Beaumont, V.D., Ottawa, secretary.

## United States May Invite Conference On Wheat Quota Question

### Many Questions On

Beaurnois Project

Matter Is Again On Ottawa House Order Paper

Ottawa, Ont.—The Beaurnois power project again figures in questions placed on the order paper of the House of Commons. E. J. Garland, United Farmer member for Bow River, has a dozen queries on the order paper with a view to obtaining further information in respect to the financing of the undertaking.

Mr. Garland first asks for the tabling of copies of any arrangements which have been entered into by the government in respect to the Beaurnois project. He wishes to know the total amount of money advanced by the government to date in connection with the construction and completion of the enterprise.

"What security has the government been given for the money advanced?" he asks.

The member for Bow River asks if the government has obtained any legal opinion regarding the legal rights of the Beaurnois Heat and Power Company to transmit electrical energy between the limits and boundaries of the province of Quebec.

"Did the minister of finance or the prime minister approve of loans estimated at \$5,000,000, made by the Royal Bank of Canada, the Bank of Montreal, and the Canadian Bank of Commerce to this enterprise?" he asks.

"Are such loans permissible under the Canadian Bank Act?"

### Attack Duff Report

Labor Makes Attack On Its Recommendations

Ottawa, Ont.—Thousands of railwaymen throughout Canada will be thrown into the ranks of the unemployed if the Duff commission's report is adopted, the House of Commons was told when Labor made its initial attack on its recommendations.

Humphrey Mitchell, Labor, Hamilton East, estimated 20,000 railwaymen would lose jobs.

Mr. Mitchell, who returned to overalls and a locomotive cab when he left the portfolio of Labor in the King cabinet, placed the number at "more than thousands and thousands."

Branch railways lines would be scrapped, said the former minister. Services would be dropped and curtailed. The Canadian National and Canadian Pacific Railways would be drawn into closer co-operation. Competition would disappear.

## Would Establish A World Wheat Pool On Voluntary Basis

Calgary, Alberta.—Virtual establishment of a world wheat pool, on a voluntary basis, by four leading wheat exporting countries, was urged before the Alberta wheat pool annual meeting here by C. W. Peterson, publisher of the Farm and Ranch Review and leading farm expert of western Canada.

Mr. Peterson's address was given at request of delegates during discussion of general wheat production and exporting problems.

Mr. Peterson's proposals, mentioning specifically the wheat exporting countries of Canada, United States, Australia and Argentina, briefly were:

1. To organize the four chief wheat exporting countries into a pool to control, within each such country, the domestic and export sale of wheat and flour.
2. To induce importing countries to agree to a fixed, uniform price of specified grade of wheat at Liverpool.
3. By creating a state monopoly of the wheat and flour business or any other feasible method, to facilitate the proper enforcement of such a price within all countries.

Elaborating his proposals after addressing the closed meeting of the pool delegates, Mr. Peterson reviewed history of agriculture for the past 300 years, and pointed up to present world conditions. He proposed the licensing of farmers in Canada, United States,

Washington, D.C.—An invitation to Canada and other countries to join in a conference on wheat exports may be issued by the Roosevelt administration shortly after it takes office.

The object would be to arrange a system of wheat export quotas such as was proposed two years ago at the London conference under the chairmanship of High Commissioner G. H. Ferguson.

President-elect Roosevelt is reliably reported to be favourably considering resumption of the conversations held at that time. In his election speech he indicated a strong lean toward international conferences as a method of solving economic problems, proposing a world parity on tariffs and monetary stabilization.

Observers note that a quota agreement between wheat-exporting nations would fit in with the domestic farm policy Mr. Roosevelt is thought to favor. Though he at no time definitely made a choice among numerous plans for "farm relief," farm organizations count on him to support the "domestic allotment plan."

This scheme, by guaranteeing to wheat-growers a fixed price on the part of their crop in the home market, would give them an incentive to limit acreage in accordance with expert advice from Washington.

U.S. economists who attended the London conference, headed by Dr. Nils Olsen, of the Department of Agriculture, reported on their return that little progress had been made and that there was not much hope of a quota arrangement. They also hinted that such an agreement between exporting countries would be regarded with hostility by importing countries and would provoke them to increase tariffs with a view to stimulating local production.

The advice of these economists, who hold that the United States must gradually retreat from the wheat export market, would probably be against reopening the questions discussed at London.

There is no confirmation of Mr. Roosevelt's reported plans, but it is said that, if any conference is called, he will invite Russia as well as Canada, Argentina, Australia, and other countries with wheat surplus to send delegates.

### Would Improve Bacon Hogs

Toronto, Ont.—Advocating a higher quality of bacon hog suitable to the demand of the Great Britain's summer, Hon. Robert W. Dominion Minister of Agriculture, has invited a number of hundred farmers and exhibitors at the Royal Winter Fair luncheon recently.

Australia and Argentina to guarantee against over-production with a form of international control.

"Thinking people," he said, "can easily comprehend the sequence of events leading up to present conditions." The first step, he said, was universal agricultural over-expansion arising from inflated war prices. The second was culmination in unprecedented agrarian price demonization, bringing the tenfold subjugation of farmers in all exporting and most importing countries to a slump standard of living. The finale was present chaos.

Mr. Peterson's plan called for establishment of a "joint international wheat board" which would become responsible for marketing of all the wheat and flour produced in the four countries.

Each of the four countries would, by the joint international body, be allotted an acreage quota annually, based on current world requirements. Normally, he said, this would vary somewhat each year in sympathy with carryovers, increases in world population and planting intentions in other countries. Special quota allowances might have to be accorded Australia and Canada in view of their comparatively undeveloped state to provide for new settlement.

The proceeds of this acreage, based on the season's yield in each country, would be sold for export sale. No more than the quota would be taken.

## THE EMPRESS EXPRESS

Published in the interests of Business and District  
Subscription price \$2.00 per year in any part of Canada or Great Britain.

R. S. Sexton Proprietor A. Haskin

Thursday, Dec. 22nd, 1932

A Merry Christmas to all.

Miss Holly Clark has been on the sick list.

Mrs. S. G. Clarkson, has been on the sick list this past week.

Skating and Curling activities have now commenced locally.

The "Yellow-jackets" are holding a dance in the theatre on Friday night.

R. C. Morrison, returned from a trip to Buffalo, on Thursday.

John Barnes informed us this week that the moisture depth in the summer fallow soil in this district is 41 inches.

Mrs. D. Lush is on the sick list.

There will be no Hospital Sewing Meeting held this month.

Father Sullivan who contracted the flu while visiting one of his Western points, returned home on Thursday.

Mrs. J. Mackie, who has been an inmate of the hospital this past week is said to be improving.

There will be a New Year's Novelty Dance held in the theatre on Monday, January 2, 1933.

Harold Boyd, Jack MacPherson and Allan VanCleave arrived home on Wednesday night, for the Christmas and New Year's holidays from Saskatchewan University.

Mrs. K. I. Spence, who had been nursing at the Nelson home north of Atlee, arrived home on Thursday.

Miss G. Collins, of Buffalo, was the guest of Mr. and Mrs. D. Lush for a few days last week.

Young Harold was altogether much too gregarious in school to please his teachers. Punishments were tried without any

## HEALTH

Acid and Alkaline Foods

We all know the game of see-saw; one side of the board goes down and the other up unless the weights on both ends are equal, when the see-saw remains balanced.

We play a form of see-saw game with our foods. One side is made up of acid-forming foods; the other side of alkaline. Neither one should be greater than the other, for good health requires that a reasonable balance be maintained between the two.

We cannot tell from the taste of foods whether their effect will be acid or alkaline in the body. After the food has been digested and used up, there remains a residue of ash, and it is the reaction of this ash which decides whether the food is acid or alkaline in the effect upon the body.

Fruits which are commonly thought of as acid are as a matter of fact, alkaline foods, because they leave alkaline ash.

## The Fly

How large onto the tiny fly must little things appear—

A rose-bud like a feather-bud, Its prickle like a spear;

A dewdrop like a looking-glass; A hair like golden wire;

The smallest grain of mustard seed

As fierce coils of fire;

A loaf of bread, a lofty hill;

A wasp, a cruel leopard;

And specks of salt as bright to see

As lambkins to a shepherd.

—Walter de la Mare.

apparent effect upon the boy, until at last the headmaster decided to mention the lad's fault in his monthly report. So the next report to Harold's father had these words: "Harold talks a great deal."

Back came the report by post duly acknowledged, but with this written in red ink: "You ought to hear his mother."

Prunes and cranberries are an exception to the general rule: they are acid-forming.

In addition to fruits, vegetables and potatoes are alkaline foods. Meats, eggs and cereals are acid foods. Milk, fat and sugar are practically neutral.

The body is able to adjust itself to a remarkable way to an excess of either group. There are, however, limits to its power, and there is no reason why it should be unduly called upon to exercise it when a proper selection of foods will make sure that the balance will be readily maintained.

It is in winter that we are most apt to overeat of acid-forming foods. Fresh fruits and vegetables may not be available at this season, with the result that the diet is built up of meat, eggs, potatoes, bread, pies and cereals, all of which are acid-forming, with the exception of potatoes. There is nothing wrong with any of these foods, but a healthy body requires a variety of foods, the variety ensuring that the body shall be balanced in all its constituents, including acid and alkaline foods.

From whatever point we choose to consider diet we find the need for a variety of foods. It is appreciated that it is not always easy to secure variety, but, in many cases where it is possible, no real effort is made to do so. When meals are irregular, it is well to remember the need for a variety of food and the necessity for avoiding an excess of any one kind of food.

Mrs. McCurdy, balance care-taking—Mayfield cemetery, 7.50; Empress Lumber Yards, relief, 3.00; Alaska Hardware, 2.70.

Total, 391.62.

Dahl.—Whereas the statement made at the Nomination meeting that the Orange Hall was offered for sale to the Municipality at \$100 was misleading as it did not give the facts;

Therefore be it resolved that the facts re this offer be published in the Alaska News and the Empress Express.

The facts referred to are that there were conditions attached to the offer:

(a) That the hall remain where it now is;

(b) That the Orange Lodge

have the use of the building for meetings once a month, and also occasionally for social purposes.

Council adjourned at 11 p.m.

The new council will meet Tuesday, January 3rd, at the office at 10 a.m.  
Sec'y-Treas. C. Evans Sargent, sine die.

We Thank You for Your Patronage and Goodwill during the year 1932 . .

And Wish that Your Christmas May be Merry and The New Year 1933 Happy and Prosperous
